## My skills

— what i know —

### My creative skills & experiences.

Since beginning my journey as a freelance developer nearly 1 month ago, I've done remote work for agencies, consulted for startups, and collaborated with talented people to create web products for both business and consumer use.

I create successful responsive websites that are fast, easy to use, and built with best practices. The main area of my expertise is front-end development, HTML, CSS, JS, building small and medium web apps, custom plugins, features, animations, and coding interactive layouts.

I also have full-stack developer experience with popular open-source CMS like (WordPress, bubble.io and others).
